

## X-Fill A™

### X-Fill Automatic Paper Void Fill System

### EFFICIENT AND USER FRIENDLY PAPER VOID FILL SYSTEM

*Auto output and auto cut for medium to large user*

This simple and jam-prevention design with the voluminous paper pattern probably is the most competitive equipment for medium to large void fill packaging user. X-Fill Automatic delivers high throughput speeds with low maintenance and downtime.

### FEATURES & BENEFITS

**Small footprint:** Small size good for tight space

**Fast:** Auto cut and fast speed up to 1.7 m/s

**Economical:** Length selection mode controls paper usage

**Efficient:** Easy head angle adjustment, easy Jam Release Design and paper splicing

**Customization:** Cut& Hold accessory for easy integration with operations

**Flexible:** Various configurations allow it to fit with workstation easily

**Easy maintenance:** Modules design for easy and speedy set up, maintenance and services

## SPECIFICATIONS

<b>Speed:</b>	Maximum at 1.7 m/s
<b>Certifications</b>	US :cTUVus, FCC, EU: CE, EMC, RoHS
<b>Power Consumption</b>	20 W (Standby mode), 120 W (Operation mode)
<b>Operation features:</b>	2 operation modes: free and preset length Foot pedal operation (one or two) Paper splicing for continuous operation Easy head angle adjustment

## CONFIGURATIONS

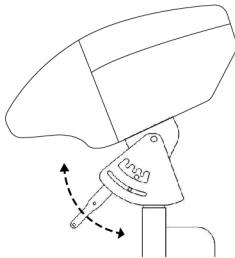

<b>Model</b>	X-Fill A	
<b>Type of stand</b>	Floor Stand	Table Stand
<b>Size (cm)</b>	L78x W73xH171-205	L73x W41xH93-127
<b>Weight(kg)</b>	52	39

## PAPER OPTIONS

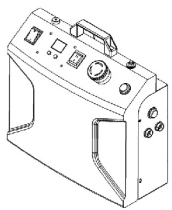

<b>Ply</b>	1	1	1
<b>Basic Weight</b>	50g	70g	80g
<b>Quality</b>	Recycled kraft paper	Recycled kraft paper	100 % Recycled paper
<b>Size(Wx L)</b>	380mm x 500m	380mm x 360m	350mm x 350m

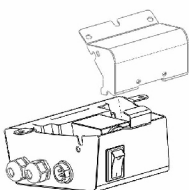

We use recycled and biodegradable paper to stay true to one of our main missions: environmental sustainability and protection of our planet.

Easy head angle adjustment

Easy-to-operate digital control panel

Cut & Hold accessory can be added outside the dispenser
