

X-Fill M™

X-Fill Manual Paper Void Fill System

IDEAL FOR LIGHT USAGE OPERATION

Manual output and manual cut for light user

The first void fill system design for mobile applications. The ultra compact design is ideal for light operations and occasional use. It's ready to use and easy to use. The unique gear design provides consistent packaging quality and strong protection.

FEATURES & BENEFITS

Super Compact: Can be used without stand

Economical: Produces on-demand paper void fill material

Flexible: Can be mounted on height-adjustable stand and ideal for temporary use.

User Friendly: Easy head angle adjustment

Maintenance Free: Modules design for easy and speedy set up, maintenance and services

Easy to use: Dispenses 15" wide fanfold paper as fast as you can pull it
