NUEVOPAK™

X-Fill Pro™

Paper Void Fill System

HIGH PRODUCTIVITY AND RELIABLE VOID FILL SYSTEM

Auto output and auto cut for ultra large user

The user friendly design, incredible speed and voluminous paper pattern gives large to ultra void fill user a new horizon of productivity and experience.

FEATURES & BENEFITS

High productivity: High speed output up to 2.1 m/s

Easy to use: LED display for data setting

Versatile: Four operation modes

Customization: Easy operation integration

Efficiency: Easy head angle adjustment, easy Jam Release Design and paper splicing

Easy maintenance: Modules design for easy and speedy set up, maintenance and services

SPECIFICATIONS

|	
Speed:	1.4m/s to 2.1m/s
Certifications	US : cTUVus, FCC EU: CE, EMC, RoHS
Power Consumption	38 W (Standby mode), 300 W (operation mode)
Operation features:	4 operation modes
	Foot pedal operation (one or two)
	Easy head angle adjustment

CONFIGURATIONS

Model	X-Fill Pro
Type of stand	Floor Stand
Size(cm)	L93x W83x H182-220
Weight(kg)	94

PAPER OPTIONS

| Ply	1	1	1
Basic Weight	50g	70g	80g
Quality	Recycled kraft paper	Recycled kraft paper	100 % Recycled paper
Size(Wx L)	760mm x 500m	760mm x 360m	700mm x 350m

ECO FRIENDLY

We use recycled and biodegradable paper to stay true to one of our main missions: environmental sustainability and protection of our planet.
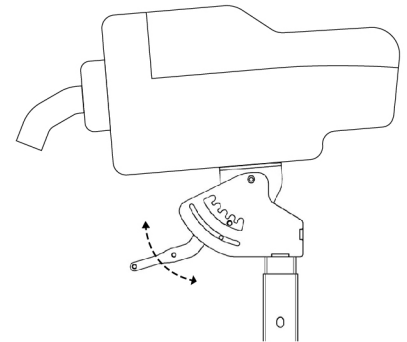

Easy head angle adjustment
